Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The nature of the interview related to whether or not proposed new limitations during an amendment would render current prior art to be overcome. The new limitations proposed included an addition of salient features and a prediction/predictive model. The proposed limitations were disclosed in the specification, primarily within figures 2 and 11, but do not further limit the scope of the claims. The proposed limitations were believed to be broad and taught within the current prior art..
